

area in which the timber is located. Such advertisement shall indicate generally the probable time when the various tracts of timber included in the plan will be offered for sale, set-asides if any, and the probable location and anticipated volumes of such tracts. The authorized officer may subsequently change, alter or amend the annual timber sale plan.

[35 FR 9785, June 13, 1970]

## **PART 5420—PREPARATION FOR SALE**

### **Subpart 5420—Preparation for Sale; General**

Sec.

5420.0–6 Policy.

### **Subpart 5422—Volume Measurements**

5422.1 Cruise sales.

5422.2 Scale sales.

### **Subpart 5424—Preparation of Contract**

5424.0–6 Policy.

5424.1 Reporting provisions for substitution determination.

**AUTHORITY:** 61 Stat. 681, as amended, 69 Stat. 367; Sec. 5, 50 Stat. 875; 30 U.S.C. 601 *et seq.*; 43 U.S.C. 1181e.

**SOURCE:** 35 FR 9785, June 13, 1970, unless otherwise noted.

### **Subpart 5420—Preparation for Sale; General**

#### **§ 5420.0–6 Policy.**

All timber or other vegetative resources to be sold shall be appraised and in no case shall be sold at less than the appraised value. Measurement shall be by tree cruise, log scale, weight, or such other form of measurement as may be determined to be in the public interest.

### **Subpart 5422—Volume Measurements**

#### **§ 5422.1 Cruise sales.**

As the general practice, the Bureau will sell timber on a tree cruise basis.

#### **§ 5422.2 Scale sales.**

(a) Scaling by the Bureau will be used from time to time for administrative reasons. Such reasons would include but not be limited to the following: To improve cruising standards; check accuracy of cruising practices; for volumetric analysis; and for highly defective timber where it is impossible to determine the tree cruise volume within a reasonable degree of accuracy.

(b) (1) BLM may order third party scaling after determining that all of the following factors exist:

- (i) A timber disaster has occurred;
- (ii) A critical resource loss is imminent; and

(iii) Measurement practices listed in § 5422.1 and paragraph (a) of this section are inadequate to permit orderly disposal of the damaged timber.

(2) BLM may also order third party scaling, only by scalers or scaling bureaus under contract to BLM, for the scaling of density management timber sales when the quadratic mean diameter of the trees to be cut and removed is equal to or less than 20 inches.

(3) Third party scaling volumes must be capable of being equated to BLM standards in use for timber depletion computations, to insure conformance with sustained yield principles.

[35 FR 9785, June 13, 1970, as amended at 71 FR 30294, May 26, 2006]

### **Subpart 5424—Preparation of Contract**

#### **§ 5424.0–6 Policy.**

(a) All timber sales shall be made on contract or permit forms approved by the Director, BLM.

(b) Other than for incidental use, the severance and/or removal of any vegetative resource for personal or commercial use requires a written contract or permit issued by the authorized officer or other person authorized by the United States. All contracts or permits shall contain the following:

(1) The name of the purchaser or his/her authorized representative with complete mailing address.

(2) The specific vegetative resources authorized for removal and their respective quantities and values.
